DETAILED ACTION

1) Acknowledgement is made of Amendment received 4/25/2005. Claims 1, 10, are amended, claim 11 is cancelled, and new claim 26 is offered for consideration.

Claims 13-25, remain withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2) Claims 1-10, 12, 26, are rejected under 35 U.S.C. 103(a) as being unpatentable over Lewecke (DE 196 00 348) (inventor is not named; applicant is Lewecke Maschinenbau GmbH, translated copy) in view of Lisec (5,873,922).

Claims 1-7, 9, 12, 26: Lewecke discloses shelving for sheets of different types, including glass sheets. The system includes shelving for storage of remainders, which are stored in vertical compartments for vertical storage of sheets and of a material sheet vehicle with a sheet reception for vertical in-and-out storage and for vertical or horizontal or tilted transportation of sheets to and from processing installation. The system includes extracting the sheets from the storage, cutting the sheets, loading the sheets on the sheet vehicle for transport to processing installation, and placing the remainders back into the storage. The cutting of sheets takes place while the sheets

are supported by the storage or while the sheets are out of the storage. The storing of sheets in and out takes place in a computer-controlled manner in a predetermined sequence (pgs. 2-7, and Figures 1-7). Lewecke does not disclose the amended claim 1 feature wherein the glass plate sheet is being scribed before dividing the sheet. Lisec discloses a process for dividing glass wherein the glass is scribed by multiple notches: such as X-notches, Y-notches, W-notches, the notches extending in different directions, before dividing the sheet as shown in Figure 1 (col. 2, line 31 to col. 3, line 67). It would have been obvious to one skilled in the art at the time the invention was made, to combine the teachings of Lewecke and Lisec, because such a combination would provide for maximum utilization of glass sheet utilizing minimum of space in the process of Lewecke as disclosed by Lisec (col. 1, line 49 to col. 2, line 12).

Claim 8: upon delivery of the sheets the glass sheets are mechanically repositioned, as required in the process.

Claim 10: a glass may also be withdrawn from the storage and delivered to the processing stage without dividing the glass into portions.

Response to Amendment

- 3) Corrected Abstract is accepted.
- 4) Claim 10 rejection under 35 U.S.C. 112, second paragraph, is withdrawn in view of amended claim.
- 5) Claims 1-10, rejection under 35 U.S.C. 102(b) as being anticipated by Lewecke (DE 196 00 348), is withdrawn in view of amended claims.

6) Claims 11-12, rejection under 35 U.S.C. 103(a) as being unpatentable over Lewecke in view of Oberg (4,277,889), is withdrawn in view of amended claims and cancelled claim.

7) Applicant's arguments with respect to claims 1-10, 12, have been considered but are most in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
